Color Archiver PC/Windows

Color Archiver is a lightweight Windows application that helps users to pick, save, and search for colors. It sports a compact layout that gives you the possibility to hover the mouse cursor over the area that you want to analyze. As soon as you release the mouse, the tool automatically decodes data by specifying details about the RGB, CMYK color model, hex, and HTML data. Plus, you can find data about the levels of hue, saturation, and luminosity. One of the top feature bundled into this tool enables you to perform search operations for a specific color. Other important features worth mentioning are represented by the possibility to create a list with favorite colors and provide a name for each one, view a palette with web colors, as well as perform conversion operations (e.g. decimal to hexadecimal, decimal to octal). During our testing we have noticed that Color Archiver carries out a task very quickly and without errors throughout the entire process. It is friendly with system resources, so it doesn't affect the overall performance of the computer. Color Archiver Setup: Important Features: - Search for a specific color - Open a color scheme and analyze the RGB, cyan, magenta, yellow, hue, saturation, and luminosity for each selected color - View a palette with web colors - Decode data by specifying details about the RGB, CMYK color model, hex, and HTML data - Convert decimal to hexadecimal, decimal to octal - Convert colors (B&W to RGB) Supported file formats: *.bmp, *.jpg, *.jpeg, *.png, *.tif, *.tiff, *.vti, *.xlsm - RGB, CMYK, and Hexadecimal colors - Indexed color names, RGB, HSV, HSL, and CMYK - HSB - HTML colors, including HTML codes - XYZ - HTML codes (in lists) - HTML colors (in lists) - HEX color codes in lists - HTML code - RGB values, including their codes (e.g. #ff0000) - HEX color values, including their codes (e.g. #ff0000) - TIFF, BMP, JPG, and PNG - Web codes: CSS - XYZ - RGB - CMYK - HTML - Hex color values -

What's New In?

Search and select colors based on name or background Color and HTML decoded Ratio to HSL calculated Ratio to RGB calculated Hue, saturation, and lightness calculated Select color from a list Download Color Archiver Get it Now Color Archiver Free Download Latest Version For Windows. Color Archiver is a lightweight Windows application whose purpose is to help users select the colors from a rich palette and decode web colors. It sports a compact layout that gives you the possibility to hover the mouse cursor over the area that you want to analyze. As soon as you release the mouse, the tool automatically decodes data by specifying details about the RGB, CMYK color model, hex, and HTML data. Plus, you can find data about the levels of hue, saturation, and luminosity. One of the top feature bundled into this tool enables you to perform search operations for a specific color. What's more, you can open a color scheme and analyze the RGB, cyan, magenta, yellow, hue, saturation, and luminosity for each selected color. Other important features worth mentioning are represented by the possibility to create a list with favorite colors and provide a name for each one, view a palette with web colors, as well as perform conversion operations (e.g. decimal to hexadecimal, decimal to octal). During our testing we have noticed that Color Archiver carries out a task very quickly and without errors throughout the entire process. It is friendly with system resources, so it doesn't affect the overall performance of the computer. To sum things up, Color Archiver proves to be a simple-to-use tool that comes bundled with limited features for helping you pick, search, and save colors. Color Archiver is a lightweight Windows application whose purpose is to help users select the colors from a rich palette and decode web colors.
